GENERAL EDUCATION MODEL

I. Introduction

Welcome.
Introduce the task force members.

II. Work of the Task Force

Finished the Goals & Outcomes.
Working on the model which we hope to complete by the end of February.
Desire to send our report forward to AP&P by April. That will end the work of this task force.
Future phase will involve implementation and I anticipate that faculty will continue to be involved in that phase, possibly many of the current task force members in order to achieve continuity.

III. Description of the Developing Model

We are presenting the outline of a model for general education. This is in rough form and we will be continuing to work on it.

We are interested in your response to this model: what you like and what you dislike. We are also interested in your ideas for revising the model, especially to accommodate specific majors and special circumstances. We value your thoughts and your wise counsel.

We plan to have another forum in January for faculty and campus response.

- 1) Outline of the Model: Alexandra Hellenbrand
- 2) Overview of the clusters: Jeni Wyatt and Jim Barnes
- 3) Samples of the cluster themes and structures: Paulette Marty
- 4) First Year Seminar: Dan Friedman
- 5) Capstone Requirement: Mike Mayfield
